# HARMONY VALLEY FARM'S WOOD ORDERING FORM

We manage our woods for wildlife (e.g. hollow trees left for squirrels and woodpeckers), recreational enjoyment, wood production and wood value.

We seek out wood with 'character' - solid knots and burls. It is a one year process from cutting, drying, rough

shaping to slow drying. The successful pieces have beautiful swirls, twisted grains and multi-coloring. We use 'live edges' (some bark remaining) for our coasters and tables. The end result is a beautiful piece of wood that is useful and adds a touch of nature's beauty to your home!
